

About this publication

This document lists the print journals and serial publications held by the John Van Oosten Library of the Great Lakes Science Center. Titles are arranged alphabetically, with references given to changes in title. Unless a call number is given, volumes are shelved in our periodicals stacks.

An asterisk (*) at the beginning of the volume holdings indicates that some volumes or issues are missing from our holdings.

We stopped purchasing most journals in the print format and now subscribe to them in the electronic format. Check our library's web page for access to our current subscriptions and those of the USGS Library.

Interlibrary Loan requests are accepted by email, phone, or fax. We do not charge for ILL services. Send requests to:
